

The Transportation Logistics Company

## **J.B. HUNT TRANSPORT SAFETY POLICY**

J.B. Hunt Transport's safety policy has originated from the company's commitment to the well-being of its employees and the general public, as well as, its desire to comply with the spirit and intent of all federal, state and local laws and ordinances.

The efficiency of any quality operation can be measured directly by its ability to control loss. Accidents resulting in loss of life, personal injury, damage to property and/or equipment, represent needless suffering and waste. Management's responsibility is to provide the safest possible working conditions and equipment for all employees.

The company policy on safety is:

- The safety of the employee, the public and the operation is paramount and every attempt shall be made to reduce the likelihood of accidents and injuries.
- Safety shall take precedence over expediency or short cuts.
- The company and its personnel shall comply with all federal, state and local safety laws and ordinances.
- Safety responsibility is considered an integral and measurable part of each employee's job performance. Every employee shall demonstrate an attitude which reflects this policy as outlined in the company's safety program.

The company has initiated an aggressive, on-going safety program which encompasses the areas of education and training, risk identification, prevention and control. All employees are encouraged to provide input and suggestions for safety improvements.
