

# CARRIER 360/P44 ELD PROVIDER ONBOARDING

## Quick Reference Guide

**E**lectronic Logging Device (ELD) tracking allows J.B. Hunt to connect to the ELD provider and collect real-time load status information from the driver's ELD. Use this guide to learn how to onboard the ELD provider in Carrier 360.

### 1. Onboarding an ELD Provider for Load Tracking

To connect the J.B. Hunt system with the ELD provider, we are collaborating with project44 (p44). This access can be granted through p44 to track J.B. Hunt loads via the ELD by taking the p44 ELD onboarding survey. The onboarding survey can be accessed to update tracking preferences through Carrier 360.

Locate the **Tracking Providers** by navigating to **Settings** in Carrier 360 and scrolling to the bottom of the screen.

### 2. Learn More

Click the **Learn More** link to activate the project44 onboarding survey.

Our most common and simple connection method is via your **Electronic Logging Device (ELD)** device.

Would you like to join the project44 network via your **Electronic Logging Device (ELD)**?

Yes

No

3

Powered by Qualtrics

### 3. Project44

The **project44** survey will open in a new tab. The first question will ask if you want to join project44 via your ELD. Click **Yes** and then click the **next arrow** to continue.

Based on your responses, it sounds like your best option for connectivity is via your **Electronic Logging Device (ELD)**

4

Powered by Qualtrics

### 4. Next Arrow

Click the **next arrow** to continue and select an ELD.

Please click the [Electronic Logging Device \(ELD\)](#) utilized by your fleet. You will be presented with specific instructions for each brand you select.

**If your fleet uses multiple ELDs:** You will need to complete a survey linked below for each ELD brand your fleet utilizes to ensure proper tracking coverage. Upon completion of a survey, please navigate back to this selection and complete all required surveys.

[3MD](#)  
[ALS-ELD](#)  
[ATS Fleet Management](#)  
[ArionTech](#)  
[Astus ELD](#)  
[Azuga](#)  
[Big Road \(Fleet Complete\)](#)  
[BluAgent ELD](#)  
[Blue Ink Tech](#)  
[Budget Trucker](#)  
[CellutrakELD](#)  
[CloudHawk ELD](#)  
[Coretex ELD](#)  
[CyntrX](#)  
[DataSmart ELD](#)  
[Dialog ELD](#)

## 5. Project44 Onboarding Survey

The **project44** survey will list over 80 different ELD providers and will provide instructions specific to each ELD provider. Use the scroll bar to find your ELD provider and **select the link**.

**Note:** If your ELD provider is not listed in the survey, scroll to the bottom of the list to manually search for a provider.

Please provide the following information:

(\*Denotes required field. You only need to provide either a MC or DOT number. SCAC is optional.)

Company Name*	<input type="text" value="J.B. Hunt"/>
MC Number*	<input type="text" value="000000"/>
<small>(2-8, numbers only)</small>	
DOT Number*	<input type="text" value="000000"/>
<small>(2-8, numbers only)</small>	
SCAC	<input type="text"/>
Contact Name*	<input type="text" value="Mike Scott"/>
Contact Email*	<input type="text" value="mike.scott@jbhunt.com"/>
Contact Phone*	<input type="text" value="(555)-555-5555"/>

Don't know your DOT or MC number? [Click here](#) to look it up within the SAFER Company Snapshot tool.

## 6. Project44 Onboarding Survey continued

After selecting a provider, a form will display for you to provide information. Anything with an asterisk (\*) is required. Once done, click the next arrow to submit the form.

## Helpful Tips

- If you use more than one ELD provider, you will need to complete the survey for each provider.
- After submitting the form above, you will need to sign an authorization release of your data. After doing this, p44 will contact you to finalize the process.
- The typical length of time to onboard an ELD provider can range from 2-3 days and up to 1-2 weeks. You can email p44 or your ELD provider to inquire about the status of their onboarding.
- Once p44 receives your information, they will contact the ELD provider to begin the connection process. When connection with the new ELD provider is complete, p44 will contact you to complete your ELD onboarding.

## Tracking Options

Once onboarding is complete, you can see the tracking source tied to the Vehicle ID in the Tracking Options section in your profile.

Tracking Options	
Vehicle ID	Source
014B	P44
89	P44
096B	P44
081B	P44
088B	P44
074B	P44
078B	P44
046B	P44
017	P44
015	P44
