J.B. HUNT FLATBED

OVER DIMENSIONAL EXPERTS

J.B. Hunt's flatbed service provides solutions for standard and specialized trailers that can be difficult to locate. Flatbed offers capacity for pop-up, surge, intermodal, and dedicated services, regardless of industry. Trailer capacity varies by type; J.B. Hunt has experts on staff to help customers choose and secure the right equipment for their operations.

As part of our flatbed capabilities, J.B. Hunt provides exceptional service for over dimensional shipments. Utilizing thousands of carriers and company-owned trailers, J.B. Hunt has the capability and capacity to support businesses with the most challenging equipment needs, including breakbulk and project cargo.

All flatbed services include access to J.B. Hunt 360, our exclusive supply chain management platform that gives businesses the ability to manage spending, track offers, and view in-depth analytics. Each customer receives reliable, one-on-one service from industry experts, leaving businesses with peace of mind and more time to focus on other operations.
